

Synthetic Review Drawing Stub

Part	Flap tucker arm
Revision	B
Pilot	WEBASTO
Material	42CrMo4

Views

Key Dimensions

Dimension	Value
Key	160 x 45 x 18 mm
Key	Arm shortened by about 6 mm
Key	Pivot region accepts a hardened bushing in Rev B

Revision Summary

- Shorten the arm by about 6 mm.
- Increase the pivot bore size to represent a hardened bushing insert.
- Refine the lightening pocket to preserve stiffness in the shorter arm.

Notes

- Synthetic flap-tucker arm review package.
- Revision B captures an arm-length trim with pivot-region reinforcement.

Synthetic review artifact for RapidDraft demos only. Not a releaseable manufacturing drawing.
